Hi Ken:

I collected samples NE Juneau County, Wisconsin that were analyzed for N15 isotopes and O16 isotopes. I was not sure how to interpret the data, so we are having a call with Region 7 to discuss the attached maps and wondered if you would be interested in sitting in to further clarify any questions that I or Dean Maraldo may have on what the data means.

I sent you a meeting request for 12:00 PM tomorrow 7/13.

Sincerely,

Cheryl Burdett

Subject: Re: Nitrate Isotope Powerpoint

Here are the graphs as discussed. I broke the data into three categories, upgradient of fields, downgradient of fields, and downgradient of the CAFO. Also attaching the spreadsheet behind the data.

Thanks,
Dean

Hi All,

Here are those slides with a few more, plus the paper referenced.
